TRAFFIC SIGNAL CABINET REPLACEMENT AT 12th AVENUE EAST AND ALAMEDA STREET

The City Traffic Control Division will be replacing the traffic signal controller cabinet at the 12th Avenue East intersection with Alameda Street on Wednesday, December 3, 2014, weather permitting. After 9:00 A.M., the intersection will be controlled by a 4-way STOP sign. Signal operation should be restored by 12:00 P.M. The City of Norman has an annual program to replace and upgrade three (3) traffic signal controllers each year which is intended to improve the reliability, technology and maintainability of the City's system of over 140 traffic signals. This cabinet replacement is the first cabinet from the FYE 2015 cabinet replacement program.

Any questions about the project or this cabinet replacement should be directed to David Riesland, City Traffic Engineer, at (405) 329-0528 or David.Riesland@NormanOK.gov.
